RE: Transmittal of Radiological Survey Maps, Lakeshore East Development Site, 221 N. Columbus Drive, Chicago, Illinois—STS Project No. 32193-XC

Dear Ms. Simon and Mr. Micke:

Enclosed please find the requested information for Lakeshore East. The enclosed map indicates the areas where the 18-inch lifts and surveys were completed, the locations of the down-hole borings and gamma surveys, the locations of Parcels O, P and the Commonwealth Edison property at the west end of the site, and the former slip locations. We have also noted those locations where the previously completed walkover gamma surveys (September and October 2001) did not cover, due to the presence of buildings, lakes or ponded water. The survey showing the gamma readings prepared from those 2001 surveys is attached for reference.

Please contact us with any questions you may have regarding this information.

Regards,

STS CONSULTANTS, LTD.

Richard G. Berggreen, C.P.G.
Principal Geologist
